Christopher Rawlins CE Primary School- EYFS Long Term Curriculum Overview 2023-2024

"Stand firm and be deeply rooted in love" Ephesians 3:17

Characteristics of Effective Learning	<p>Playing and Exploring: Children investigate and experience things, and 'have a go'. Children who actively participate in their own play develop a larger store of information and experiences to draw on which positively supports their learning.</p> <p>Active Learning: Children concentrate and keep on trying if they encounter difficulties. They are proud of their own achievements. For children to develop into self-regulating, lifelong learners they are required to take ownership, accept challenges and learn persistence.</p> <p>Creating and Thinking Critically: Children develop their own ideas and make links between these ideas. They think flexibly and rationally, drawing on previous experiences which help them to solve problems and reach conclusions.</p>
EYFS Overarching principles	<p>Unique Child: Every child is unique and has the potential to be resilient, capable, confident and self-assured.</p> <p>Positive Relationships: Children flourish with warm, strong & positive partnerships between all staff and parents/carers.</p> <p>Enabling environments: Children learn and develop well in safe and secure environments where routines are established and where adults respond to their individual needs and passions and help them to build upon their learning over time.</p> <p>Learning and Development: Children develop and learn at different rates. We must be aware of children who need greater support than others.</p> <p>Learning and development occurs across all seven areas of learning linked to our main theme and children's interests.</p> <p>Learning through play is an important part of how our children learn and develop. Core books are used alongside adult interactions, as well as enhancements to our continuous provision both inside and outside to provide a rich learning experience for all children.</p>
