GOOGLE CLASSROOM: EXAMPLE

Our Google for Education platform will act as a means of communication between your child and teacher throughout any further school closure. It allows teachers to set lessons, answer questions, provide feedback and talk to the class via Google Meet.

To access Google Classroom, [Example](#) has been set up with a Google for Education account. It consists of a unique username which is based on their name and our school domain. This takes the form of an email address:

USERNAME: example@christopher-rawlins.co.uk

PASSWORD: [example01](#)

Google for Education Accounts

The Google for Education account for [Example](#) is assigned to [Example](#) CE Primary School. Google does not track the activities of this account for advertising or marketing reasons, but we have full visibility of your child's actions whilst using Google Classroom. This email address is just a username and Gmail is not available to pupils.

If you are concerned about Google for Education, you can find out more at <https://safety.google/>

How does my child access their Google for Education account?

Google for Education can be accessed from any computer or tablet that has access to the internet. We have a link via a portal on our website or you can simply go to Google and login with your child's username and password.

To access Google Classroom pupils can use the classroom app or visit <https://classroom.google.com/>

Please watch the Getting Started Video for Parents: <https://gfe.oxon.in/>

Do you require support getting started?

We are obviously aware that in some households, children will not have access to a computer or need to share devices. If you are concerned about this, please get in touch with us to discuss how your child might access their Google for Education account.

The practicalities of remote teaching are a learning curve for all of us and your patience is appreciated as our teachers get up to speed with Google Classroom. Children will have some introduction to this too in school.

Although we intend to use google classroom for partial or full bubble closures as well as any whole school closing (as per our remote learning plan) we will still be able to support pupils by arranging paper copies of activities.

Thank you for your continued support,

Kind regards,

Sarah Smith – Headteacher.
